I have no reservation recommending Mr. Loyal Hanson as a patent attorney.

I have worked with Attorney Hanson for over 15 years and have acquired 13 battle-tested patents as well as numerous trademarks. These patents and trademarks form the foundation of my company's Intellectual Property base. Mr. Hanson's expertise at navigating the complex patent application process was fundamental to our success. He has provided a **consistently high level of professional service** and I highly recommend his services.

Mr. Hanson is an amazing patent lawyer. I needed lawyer assistance quickly to help protect my invention, and he was there. He took my situation seriously and acted promptly to accommodate my needs. He was **easily accessible** through email and answered every question I had as a first time patentee. I strongly recommend Mr. Hanson for patent lawyer services.

I began working with Mr. Hanson back in 2012. I don't know much about lawyers but I do know a lot about **service**. I was a little surprised when he would return my calls and emails so quickly. He always makes himself available; this seems to be on top of all the little details.

~ Mark W. - Temecula, CA

I highly recommend Mr. Hanson as a patent attorney.

Mr. Hanson has prepared 6 patent applications for my company. All of them were professionally written in a timely manner and at a reasonable cost. All of them were granted patents. In addition to his skill in writing patent applications and obtaining patents, Mr. Hanson has an extensive international network for assisting in filing for international patents.

Mr. Hanson's professional services are **very reasonably priced**. I have recommended Mr. Hanson to several of my business associates and all of them have been well satisfied with his services. He has been a great asset to my company and is highly recommended.

~ Gaylord G. - Vista, CA

I strongly recommend Attorney Loyal Hanson for patent attorney services. I am still receiving quarterly **royalty payments** in the six and seven figure range in line with the patent licensing agreement Mr. Hanson prepared for me that covers the tool patent he obtained for me.

~ Dan K. - Canyon Lake, CA

I was referred to Loyal Hanson by another inventor. Being a first-time inventor, it was very difficult to know where to obtain a good attorney. I just completely trusted Loyal, and knew I was in good hands because he had obtained patents for a fellow inventor. I am thrilled to say that he obtained design and utility patents on my invention. He is **very thorough and detailed** in his patent descriptions. **I highly recommend him**. He always answered all my emails no matter how trivial they might have seemed. He is truly brilliant and I am honored to have worked with him.
